GAME RULES

The video slot game, Book of Ba The Secret of the Netherworld, has five spinning reels with symbols on them. Every time you spin the reels, they come to rest showing in the game window a random selection of symbols, out of 10 symbols present in the game. Certain combinations of symbols result in payouts. The book symbol acts like wild and scatter, substituting for all symbols. It can only appear on the reels 1, 3, and 5.

You can choose the amount you want to bet on the 9 winlines (lines, for short). For spinning the reels, you can use the Spin or the Autoplay buttons (on mobiles, Autoplay can be found in Options). When you use the Autoplay button, the reels spin automatically, using a fixed number of lines and bet you have chosen. The reels will stop spinning, when Free Spins are triggered, or you can stop the Autoplay mode at any time by pressing the Stop button.

Book of Ba The Secret of the Netherworld video slot game is enhanced with Shatter mode with up to 4x multiplier in the base game and a special expanding symbol and up to 4x multiplier in Free Spins.

GAME RULES

SHATTER MODE

Any win on the screen activates the Shatter mode. Win combinations shatter to allow for new symbols to appear in order to form new winning combinations. A maximum count of shatter rounds is 4. A win multiplier increases with each shatter round up to 4. The Shatter mode comes to an end when the multiplier reaches x4 or when no winning combination appears on the reels.

SPECIAL EXPANDING SYMBOL IN FREE SPINS

When three Book symbols appear on the screen at the same time, they trigger 10 retriggerable Free Spins. They do not initiate Free Spins when they're accumulated during the Shatter mode. At the beginning of Free Spins a special expanding symbol is selected and it expands to cover the whole reel. Multiple special symbols do not need to appear on neighbouring reels to expand. When the special expanding symbol is part of a winning combination in Free Spins, it is not evaluated. Instead, it expands straight away and is evaluated as part of this feature. No new special symbol appears when Free spins are retriggered. There are always 10 new free spins awarded. Free Spins always start with 1x multiplier and it increases up to 4x. In each new round of Free Spins the multiplier is reset back to x1. The special expanding symbol is evaluated at the end of the Shatter mode. The Book symbol cannot be selected as a special expanding symbol during free spins. Free Spins are played at the same bet as in the base game.

GAME RECOVERY

In the base game, in case you quit the game in progress and there is a win to collect, all your winnings will be properly stored and will be available to collect, once the player enters the game again. If you were interrupted during Free Spins, then you will still be able to continue with your feature right where you left off. If your game is interrupted because of some technical issues, then once you get back to the game, it will be recovered and you start from where you left off.
