243 CRYSTAL FRUITS

GAME DESCRIPTION

SHATTER THE FRUITS WITH EVERY RESPIN!

The fruits of old have grown tired and have put on shiny new crystal skins. Not only have they changed their look, but a 243 WILD symbol has also been a revolution, changing the game's 5 paylines into 243 when it appears on the 2nd, 3rd or 4th reel! Keeping in line with this new look, any winning paylines will also shatter and give way to new crystal fruits to form new winning combinations!

GAME FEATURES

UP TO 5X MULTIPLIER RESPIN

In the base game when a 243 Wild lands on the 2nd, 3rd or 4th reel, it makes the game transform from 5 win lines to 243 win lines and a respin feature appears. Here, when winning combinations are gained, they explode, leaving space for new symbols and another respin. The win multiplier increases with every new respin until it reaches the maximum of 5x multiplier.

GAME RULES

243 Crystal Fruits is a revamped five reel traditional fruit machine that offers fantastic payouts. The game has five win lines paid from left to right and eight regular symbols, with a different pay level, that win if three or more are lined up in a sequence on a payline beginning from the leftmost position.

You can choose the amount you want to bet on 5 fixed win lines (lines, for short). For spinning the reels, you can use the Spin or the Bet Max button.

243 Crystal Fruits Video Slot game is enhanced with a special WILD symbol, which activates 243 ways to win and initiates 243 Respin Feature

HOW TO PLAY:

To play the game:

1. Choose your Bet by clicking on the - and + buttons below the Bet box. After you have selected the maximum bet, clicking on the + button again will reset the bet amount back to the minimum. This game has 5 fixed win lines, which are transformed to 243 ways during 243 Respin Feature.
2. When you have made your bet selection, click on the Spin button to spin the reels. If the reels show a winning combination after they stop, you win according to the payout table.
3. You can also click on the Bet Max button to play the maximum of credits allowed in the game. Beware that the reels will spin as soon as you click on the Bet Max button, without previous revision of the values or reconfirmation of your action.
4. If you are not sure about your winning, click on the "i" (Payout) button in the game window to see the winning combinations. If you win on multiple lines, your winnings are added up and the total amount earned is displayed in the Win box.

GAME RULES

WINNING COMBINATIONS

The winning symbols must appear consecutively one after another in a given win line, starting at the leftmost reel, for the win to be granted. All wins are paid left to right. Only the highest win in a win line is paid. The Payout is calculated by multiplying your total bet by the winning combinations obtained in the spin. The amount you win will be added to your total credits account by pressing the Collect button.

243 RESPIN FEATURE

In the base game when a WILD243 lands only on the 2nd, 3rd, 4th reel, the game transforms to Criss Cross mode, and 5 win lines change to 243 ways, with a re-spin feature helping to boost the wins. Here, when winning combinations are gained, they explode, leaving space for new symbols and another respin. The win multiplier starts with 1x, increases with every new respin until it reaches the maximum of 5x multiplier. Then the feature ends regardless of whether there is win or not. The number of re-spins does not depend on the number of WILDS landing on the screen. However, to start the Respin Feature, at least one WILD on the 2nd, 3rd, 4th reel as part of a winning combination is needed. During re-spins the WILD is only a substitute for all other symbols.

GAME RECOVERY

In case you quit the game in process, all your winnings will be properly credited to your account according to the winning result produced prior to the game being prematurely terminated. If your game is interrupted because of some technical issues, then once you get back to the game, it will be recovered and you start from where you stopped.
